The Imbibe Story

The beginning

1

The founders started building software as amateurs under the name "DigiSoft" while still in their graduation college.

The progress

2

Later opted for the name "Imbibe" during post-graduation, servicing local clients during post-graduation and immediately there-after.

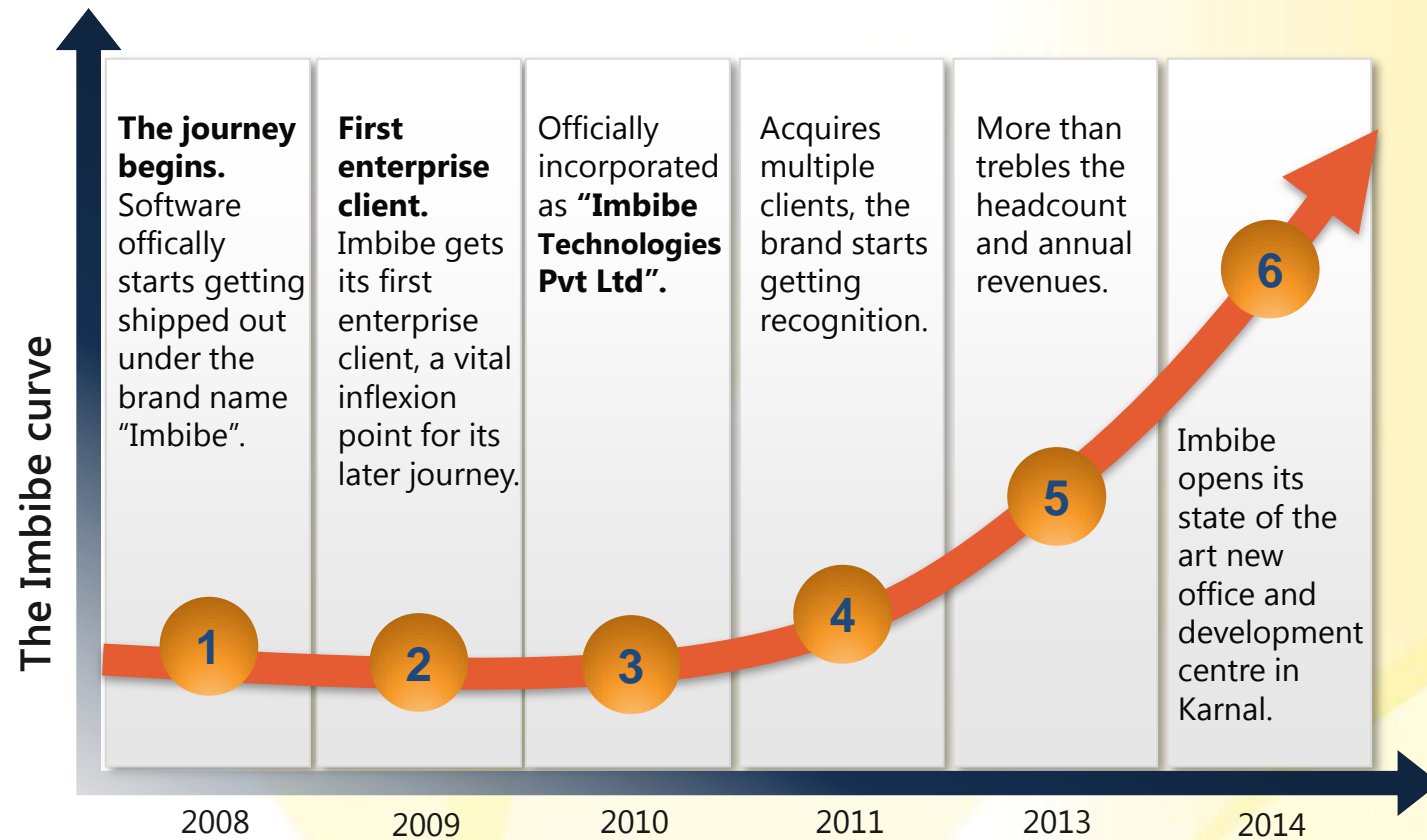

The company was born

3

"Imbibe Technologies" was officially incorporated as a private limited company in the fall of **2010**.

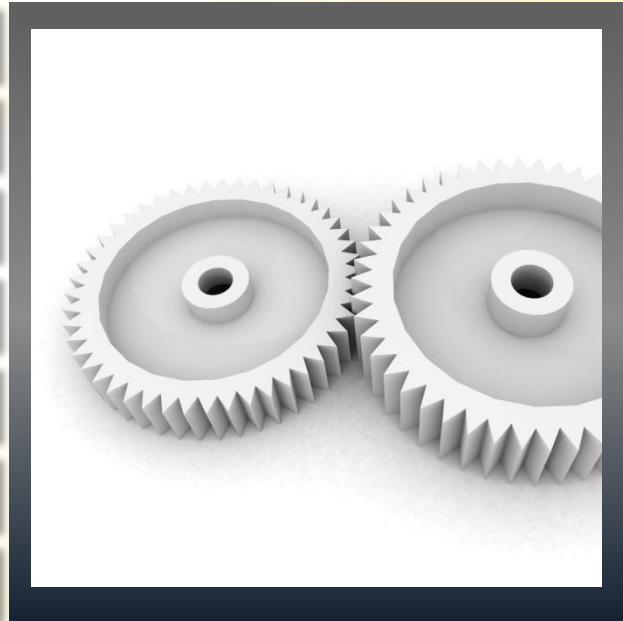

Today, Imbibe is a fast growing, dynamic organization having a team of more than 40 people in various capacities servicing clients in several industry verticals; providing a diverse range of services including enterprise development, web presence, corporate branding, content management, consulting etc.

- ✓ 7 Lifestyle

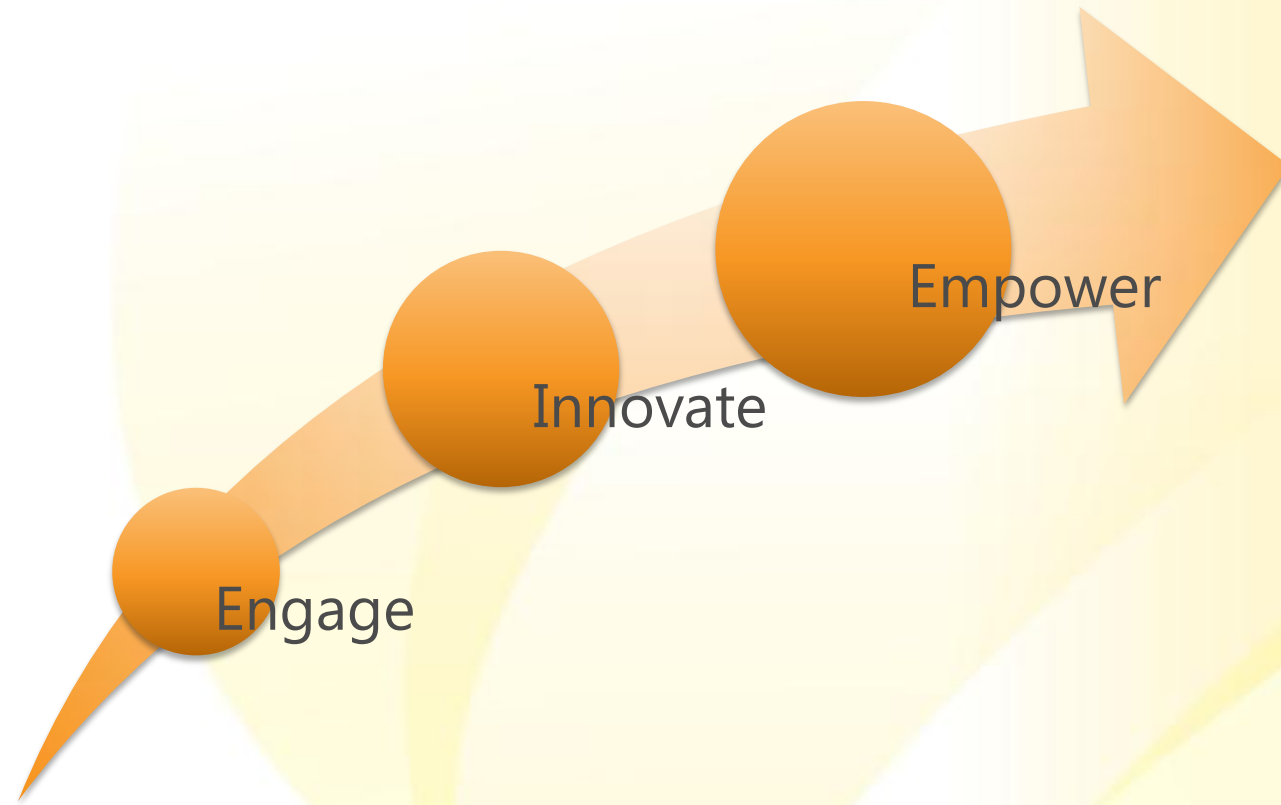

Client Geographies

Imbibe's Strategy

For people and businesses alike

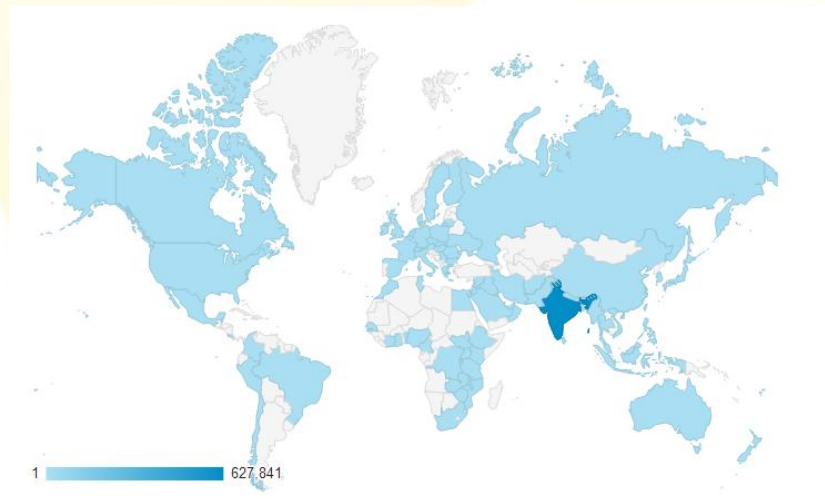

Solutions that scale

Imbibe has extensive experience building solutions that scale for today's enterprise. On the one hand, our systems handle tens of thousands of users for our clients each month,

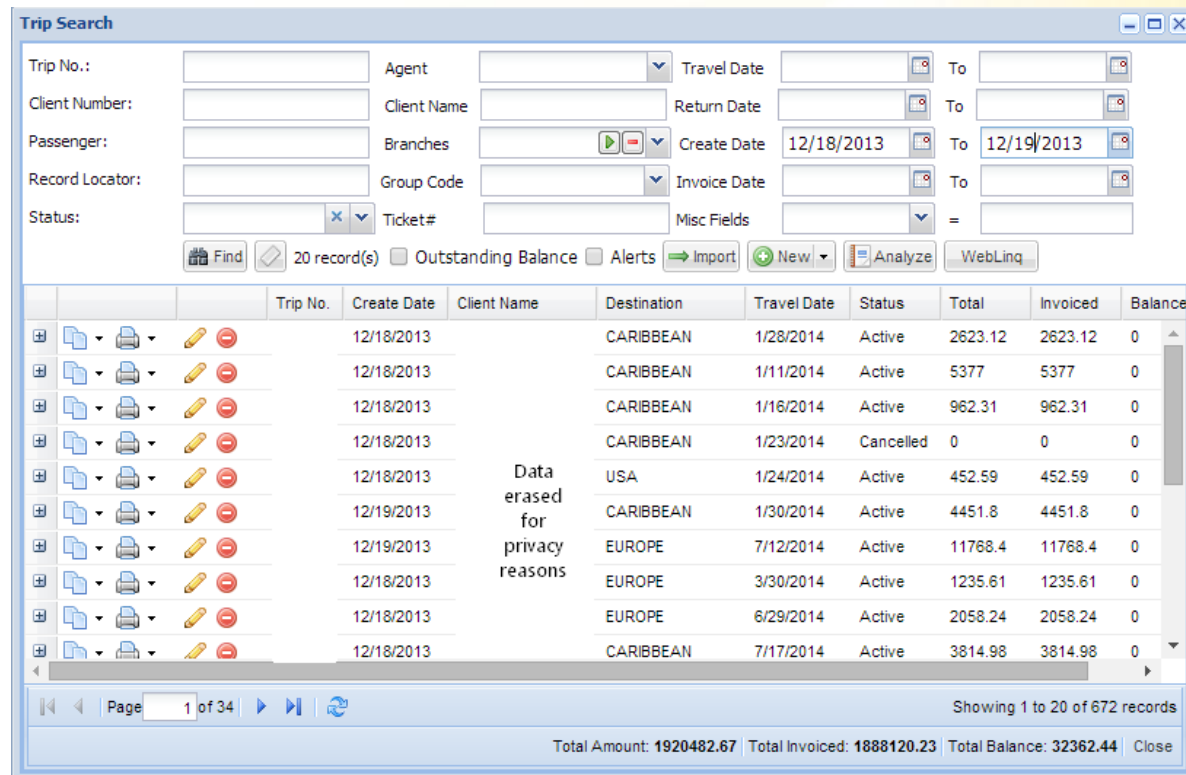

spread across the globe,

Solutions that scale (contd.)

and then, we build systems that process transactions worth millions of dollars for our clients every single day of the year.

The screenshot shows a 'Trip Search' application window. It features a search form at the top with fields for Trip No., Client Number, Passenger, Record Locator, Status, Agent, Client Name, Branches, Group Code, Ticket#, Travel Date, Return Date, Create Date, Invoice Date, and Misc Fields. Below the form are buttons for Find, Import, New, Analyze, and WebLink. The main area contains a table with 11 columns: Trip No., Create Date, Client Name, Destination, Travel Date, Status, Total, Invoiced, and Balance. The table displays 10 rows of data, with a note 'Data erased for privacy reasons' spanning several rows. The bottom of the window shows a pagination bar (Page 1 of 34) and a summary bar with Total Amount, Total Invoiced, and Total Balance.

Case Study

Institute of Company Secretaries of India

Partnerships

Travcom Canada

Imbibe started its partnership with Travcom in 2009.

Together Imbibe and Travcom build solutions for the Travel industry that have fundamentally changed how Travel agencies interact with their clients.

1

Microsoft

Imbibe's partnership with Microsoft started in 2009 when Imbibe enrolled in Microsoft's BizSpark program for start-ups.

Today Imbibe is an active member of Microsoft's Partner Network building products and services on MS platforms that touch the life of masses.

Imbibe has aggressive strategies lined-up to deliver innovative services building upon the strengths of Azure platform.

2

Prosperoware

Prosperoware solves problems that make a difference for law firms and other professional organizations.

The relationship which started as a small engagement back in 2010 has matured to a full-blown partnership today, with Imbibe and Prosperoware together building solutions to help firms (spread across 5 continents) take their practice and engagement to next level.

Client Testimonials

Dr. Manoj Virmani

Very professional approach along with friendly atmosphere, I like it. The way solutions are provided is very unique and exemplary.

Mike M,
TCI Canada

Imbibe's web development and consulting has been outstanding. It has been beyond our expectations. We get timely deliverables and professionalism throughout the entire process. The code is of high quality and the communication amazing. We will continue to work with Imbibe for existing and future projects.

Manpreet Singh,
Arpana Services

Very many thanks for your work and patience. I must say it's a vast improvement on what was there before. I'm very pleased, lots of blessing from Team Arpana.

Thank you
